LEE SHELBY *Triumph over Tragedy*

Lee Shelby is considered to be one of the most outstanding Motivational Safety Speakers today. Lee is a unique individual who can captivate an audience immediately. He is a motivator, a storyteller, a humorist, an author, a private pilot. Most of all, an inspiration to us all. Lee has presented to thousands of employees at all levels across a multitude of industries. His clientele has included BP, Conoco Phillips, Comcast Cable, ComEd, Northeast Utilities, ConEd, DuPont, IBEW, Cummins Diesel, NIPSCO, National Safety Congress, Southern Companies and Westar Energy and numerous associations, safety councils and conferences in an effort to help educate and motivate everyone to help change behaviors and to shape and forge their safety cultures for the future.

Lee Shelby's presentation is unique because it comes from the heart and it's personal. It is highly motivational, interactive and humorous as he relates his occupational injury, his recovery to work, the impact his injury had on his family and the challenges he has faced along the way, in such a way that will change the hearts and minds of everyone who attends.
