

## COVID-19 Guidance for Construction Employers

The following is information provided by the Laborers' Health & Safety Fund of North America on additional guidance for construction employers.

The Laborers' Health & Safety Fund of North America (LHSFNA) recognizes that LIUNA signatory employers are committed to ensuring the safety and health of their workforce, including taking the appropriate steps to limit the spread of the novel coronavirus known as SARs-CoV-2 and the disease it causes, COVID-19.

The Fund has developed recommended actions and guidance that construction employers and workers can follow to limit the spread of the virus and reduce risk on construction sites. That guidance, along with the Fund's Coronavirus & COVID-19 fact sheet, is available on the Fund's homepage at [www.lhsfna.org](http://www.lhsfna.org). Click the buttons below to go directly to these documents and download a PDF.

The Fund is developing additional materials related to preparedness and the mental health impacts of the novel coronavirus that will be available in the coming days. For questions about these materials or the novel coronavirus in general, please email [lifelines@lhsfna.org](mailto:lifelines@lhsfna.org).
