

ARTBA Resources to Help Build Your COVID-19 Safety Toolbox!

The American Road & Transportation Builders Association (ARTBA) has prepared a comprehensive "toolbox" to help you and your workforce safely navigate the COVID-19 pandemic. These valuable resources were developed by ARTBA in collaboration with construction industry partners and by our expert team of safety and health professionals. Most of these materials, available in Spanish and English, will help ensure you can train your workers to best understand and comply with regulatory requirements and practices recommended by public agencies.

7-Minute Video: Preventing the Spread of Infectious Disease in Highway Work Zones
