

CPD 20-8 Source Inspection Procedures during Coronavirus Disease Pandemic
[4/1/2020]

Please click on the link below for the Construction Policy Directive (CPD) 20-8, “Source Inspection Procedures During Coronavirus Disease Pandemic,” that was published and posted yesterday. This directive implements modified source inspection requirements for certain products that are manufactured out of state and are used on ongoing projects. Materials and Engineering Testing Services (METS) will continue to provide all source inspection services as required.
